

# EXPERIENCE ADVANCED SUBJECT TRACKING

CLEAN & QUIET ELECTRIC POWER

New 4x4!

# THE SHADOW™

## A NEW 4WD FOR ON OR OFF ROAD

The Shadow Tracker is a 4WD electric motorized camera dolly that offers great versatility in subject tracking and camera positioning. Perfect for steadicam, stabilized heads, jib arms and telescopic cranes up to 15 feet. The Shadow features hard-anodized aluminum cheeseplate with 3/8" holes drilled 1" o.c. for numerous rigging possibilities. A 4WD with adjustable four-wheel independent air bag suspension, four moveable seats for a variety of seating arrangements, 1 1/4" speed rail receivers, and more. Cranes/jib arms require a Crane Mount accessory.

### DAILY, WEEKLY AND LONG-TERM RENTALS

Delivered to your site and operated by our experienced technician. *Inquire about jib arms and other accessories available from Grip Trix!*
