EXPERIENCE ADVANCED SUBJECT TRACKING

TRACKER XL™

A BETTER WAY TO GET THE SHOT

The Tracker XL is an electric motorized camera dolly that offers maximum versatility in subject tracking and camera positioning. Perfect for steadicam, stabilized heads, jib arms and telescopic cranes, such as the Technocrane 15 or Moviebird 17. The Tracker is covered with aluminum cheeseplate with 3/8" holes drilled 1" o.c. for numerous rigging possibilities. Features adjustable four-wheel independent air bag suspension, four moveable seats for a variety of seating arrangements, 1¼" speed rail receivers, and more. Cranes/jib arms require a Crane Mount.

*DAILY, WEEKLY AND LONG-TERM RENTALS
Delivered to your site and operated by our experienced technician. Inquire about jib arms and other accessories available from Grip Trix!*
